## FAUNA BURUANA.

## DIPTERA, Calliphorinae and Muscinae.

Ву

W. S. PATTON (Edinburgh).

As Mr. Patton was shortly leaving his country for North-China he was not able to prepare a paper on the small collection submitted to him. So there can only be given here a list of species after his determinations (J. C. H. DE MEIJERE).

## CALLIPHORINAE.

Station 1, II. XII. '21. Q. Rhinia testacea Rob. Desv. Station 1, 30. X. '21. ♂, ♀. Euidiella discolor FAB. Station 1, 21/22. X. '21. Q; 27. X.' 21. 3; quadrinotata Big. Station 9, 28—29. V. '21. ♀. Station 12, 4. II. '22. 1250 M. ♀; Station 12, melastoma WIED. 5. II. '22. 1075 M. ♀; Station 13, 31. VIII. '21. &; Station 13, 1. III. '22. 1475 M. Borbororhinia bivittata WALK. Station 1, 21-30. IX. '21. 3; Station 11, 14, 25, VI. '21, 1040-1120 M. J. Station 12, 3. II. '22, 900 M. J. Station 3, 29. VIII. '21. &; Station 7, 1921. d. Lucilia nosokomiorum Dol. inducta (WALK.?) Station 13, 29.
